

Voyages of Rediscovery

Dear Students, Educators and Parents,

The mission of *Voyages of Rediscovery* is to facilitate educational expeditions on the waterways of Washington State. Using 30ft. voyager canoes as a medium for education, *Voyages of Rediscovery* gives students a new found connection to their “backyard” river. *Voyages of Rediscovery* is a program that can be transferred or altered to meet the needs of educational institutions, outreach groups and community development groups.
